

- nCLOSE for Apple iPad is a sleek, modern and elegant enclosure that houses, secures and protects the Apple iPad. nCLOSE is ideal for consumers or businesses, as it can be used as a stand-alone enclosure or transformed into an iPad Point of Sale (POS) System by attaching the nCLOSE credit card module, cash drawer and printer. The nCLOSE credit card module can be attached in portrait or landscape based on the users software specific dependencies. nCLOSE secures 3.5mm or Apple 30-Pin mobile credit card readers. An nCLOSE EMV + PIN capable credit card module will be available in 2013. nCLOSE works with any iOS software and compatible mobile card reader.

- nCLOSE for Apple iPad with power mount is perfect for any consumer or business worried about the security and protection of their Apple iPad and mobile credit card reader. The nCLOSE mount will secure your Apple iPad to any surface via screws, adhesives, or magnets; plus charges while mounted or sync and charge via an external male USB port in any mobile environment with the optional quick release button. nCLOSE custom power mount has three (3) adjustable friction knobs for each of the 3 movements: a 355° screen rotation, a 355° lateral swivel and 180° vertical pivot. Simply lift the nCLOSE for Apple iPad up and it faces the customer to sign, SMS or email their receipt.
